German; the country and seacoast of France,—Dinan, Cherbourg, St. Malo, Pau; in Spain; in England,—Oxford, Windsor, Canterbury; in Italy,—Rome, Venice, Lucca, and Verona. Besides contributing fiction to the magazine, Mr. Henry James will furnish a paper of reminiscences of James Russell Lowell's London life. The "Studies of American Cities" are not mere descriptions, but criticisms, with a view to understanding the character of the cities which have the greatest influence on American life. The first of these will be a paper on Boston, by Ralph Waldo Emerson, now first published. "Private Life among the Romans" will be described in a paper by Miss Harriet Waters Preston and Miss Louise Dodge, whose joint studies of episodes of ancient history have won such high praise. Lafcadio Hearn will contribute some delightfully picturesque and graceful papers on Japanese life, as seen by a resident in Japan; and Mr. E. F. Fenollosa will discuss the influence of Japanese art on the art of Europe and America, in an early number. The best interests of the higher life of towns and cities will be considered in a series of papers on "Parks for Small Towns," "Local Museums of Art," "Free Libraries," etc. Papers on the Civil History of Our Country in War Time will be a feature of *The Atlantic* for 1892, and will be begun by an article by an eminent Southern scholar, giving the grounds for his unquestioning adherence to the Southern cause; and one by a distinguished man of science from a Border State, accounting for his own decision in the same emergency. Attention will be given

this year to education generally, and especially to the education of girls and women. These papers—from the most eminent authorities—will follow in the same line as those by President Gilman, Professor Shaler, Dr. Cleveland Abbe, and others, which have appeared during the past year. The critical reviews of new books that are talked about will be continued.

—The December number of *The Engineering Magazine* contains a paper on "Landscape Beauty at Newport," by John De Wolf, which treats the subject from the standpoint of giving definite and practical ideas. In the same number is the first of Professor Coleman Seller's series, entitled "American Supremacy in Applied Mechanics," which should be read by every one who desires some knowledge of the men and the forces which have wrought such astonishing changes in this age of engineering and mechanical progress. Other papers in the same number are "A Permanent Census Bureau," by Edward Atkinson; "Geology from a Business Point of View," "Picturesque Suburban Railroad Stations," "Impure Water and Public Health," "Fulton Night with Mechanical Engineers," "Conditions Causing a Cold Wave," "The Canadian Pacific Railroad."

—A new edition of "A Girl in the Karpethians" is announced by the Cassell Publishing Company. It will contain a new portrait of the author, Miss Menie Muriel Dowie (now Mrs. Henry Norman), and a preface and introduction written by her especially

### A BUSINESS MAN'S HAND-BOOK.

The report of the Postmaster General, just issued, states that nearly \$2,000,000 in checks, drafts and money, reached the dead-letter office during the present year through improper addressing—more than one-half from New York State. Probably double this sum has been lost through delays and accidents resulting from carelessness in mailing and correspondence. To reduce these errors to a minimum, the Government issues *THE UNITED STATES OFFICIAL POSTAL GUIDE*, in an annual number published in January, and monthly supplements, a book of 900 pages, containing three classified lists of the 66,000 post-offices in the Union, together with postal rules and mail regulations. Every merchant, wholesale dealer, manufacturer and professional man having correspondence, will find the Guide indispensable. It is also of great assistance in translating illegible writings to lawyers, printers and others. No establishment where accuracy and care are observed as rules is complete without it. The price of the GUIDE in paper is \$2.00, in cloth, \$2.50. Orders in New York State should be sent to HOME AND COUNTRY, 93 Maiden Lane, New York; outside of New York State to GEO. F. LASSER, 1213 Filbert Street, Philadelphia, Pa. Agents wanted.

### Wants.

Any person seeking a position for which he is qualified by his scientific attainments, or any person seeking some one to fill a position of this character, be it that of a teacher of science, chemist, draughtsman, or what not, may have the "Want" inserted under this head FREE OF COST, if he satisfies the publisher of the suitable character of his application. Any person seeking information on any scientific question, the address of any scientific man, or who can in any way use this column for a purpose consonant with the nature of the paper, is cordially invited to do so.

WANTED.—*Science*, No. 178, July 2, 1886, also Index and Title-page to Vol. VII. Address N. D. C. Hodges, 874 Broadway, New York.

A YOUNG MAN (31) would like a position in a college, laboratory, or observatory, is also willing to assist at a steam engine, etc. Address J. W., care of *Science*, 874 Broadway, New York.

WANTED.—A position in the philosophical or pedagogical department of a college or university by a young man (30) who has had five years' practical experience in teaching, and who has done four years' post-graduate work in philosophy, devoting his attention during the last two years especially to study and original investigation in scientific psychology and its applications in education. Address E. A., care *Science*, 874 Broadway, N. Y. City.

WANTED.—A suitable position in Washington, D. C., not connected with the Government, and with a salary not to exceed \$650 a year, by an experienced biologist with six years' university training. Applicant has been a skilful surgeon for fourteen years; is a practical photographer, cartographer, and accustomed to the use of the typewriter. He is also capable of making the most finished drawings, of any description, for all manner of illustrative purposes in science; trained in museum methods and work; also field operations and taxidermy in its various departments, and modeling, production of casts, restorations of paleontological specimens and similar employments. Address U. S. R., care *Science*, 47 Lafayette Place, N. Y.

WANTED.—By a young man (27), B.A. and Ph.D., with three years' experience as assistant in chemistry, position as instructor in chemistry or in natural sciences in college or academy, or other advantageous position as chemist. Give particulars as to work, salary, etc. F. W. MAR, L. Box 23, West Haven, Conn.

## THE WINNIPEG COUNTRY; OR, ROUGHING IT WITH AN ECLIPSE PARTY.

BY  
A. ROCHESTER FELLOW.  
(S. H. SCUDDER.)

With thirty-two Illustrations and a Map.  
12°. \$1.50.

"The story is a piquant, good-humored, entertain-  
ing narrative of a canoe voyage. A neater, prettier  
book is seldom seen."—*Literary World*.  
"This is a sprightly narrative of personal inci-  
dent. The book will be a pleasant reminder to  
many of rough experiences on a frontier which is  
rapidly receding."—*Boston Transcript*.  
"The picture of our desolate North-western terri-  
tory twenty-five years ago, in contrast with its  
civilized aspect to-day, and the pleasant features of  
the writer's style, constitute the claims of his little  
book to present attention."—*The Dial*.

## JUST READY. THE LABRADOR COAST.

A Journal of two Summer Cruises to that  
region; with notes on its early discovery,  
on the Eskimo, on its physical geography,  
geology and natural history, together with  
a bibliography of charts, works and articles  
relating to the civil and natural history of  
the Labrador Peninsula.

By ALPHEUS SPRING PACKARD, M.D., Ph.D.  
8°, 513 pp., \$3.50.

## NEW BOOKS. JUST PUBLISHED FOSSIL RESINS.

This book is the result of an attempt to  
collect the scattered notices of fossil resins,  
exclusive of those on amber. The work is of  
interest also on account of descriptions given  
of the insects found embedded in these long-  
preserved exudations from early vegetation.

By CLARENCE LOWN and HENRY BOOTH.  
12°. \$1.

## THE AMERICAN RACE: By DANIEL G. BRINTON, M.D.

"The book is one of unusual interest and value."—  
*Inter Ocean*.  
"Dr. Daniel G. Brinton writes as the acknowledged  
authority of the subject."—*Philadelphia Press*.  
"The work will be of genuine value to all who  
wish to know the substance of what has been found  
out about the indigenous Americans."—*Nature*.  
"A masterly discussion, and an example of the  
successful education of the powers of observation."—  
*Philadelphia Ledger*.

Price, postpaid, \$2.

## BY THE SAME AUTHOR. RACES AND PEOPLES.

"The book is good, thoroughly good, and will long  
remain the best accessible elementary ethnography  
in our language."—*The Christian Union*.  
"We strongly recommend Dr. Brinton's 'Races  
and Peoples' to both beginners and scholars. We  
are not aware of any other recent work on the  
science of which it treats in the English language."—  
*Asiatic Quarterly*.  
"His book is an excellent one, and we can heartily  
recommend it as an introductory manual of ethnol-  
ogy."—*The Monist*.  
"A useful and really interesting work, which de-  
serves to be widely read and studied both in Europe  
and America."—*Brighton (Eng.) Herald*.  
"This volume is most stimulating. It is written  
with great clearness, so that anybody can under-  
stand, and while in some ways, perforce, superficial,  
grasps very well the complete field of humanity."—  
*The New York Times*.  
"Dr. Brinton invests his scientific illustrations and  
measurements with an indescribable charm of nar-  
ration, so that 'Races and Peoples,' avowedly a rec-  
ord of discovered facts, is in reality a strong stimu-  
lant to the imagination."—*Philadelphia Public  
Ledger*.  
"The work is indispensable to the student who re-  
quires an intelligent guide to a course of ethno-  
graphic reading."—*Philadelphia Times*.

Price, postpaid, \$1.75.

## THE MODERN MALADY; or, Suf- ferers from 'Nerves.'

An introduction to public consideration,  
from a non-medical point of view, of a con-  
dition of ill-health which is increasingly  
prevalent in all ranks of society. In the  
first part of this work the author dwells on  
the errors in our mode of treating Neurast-  
henia, consequent on the wide ignorance of  
the subject which still prevails; in the sec-  
ond part, attention is drawn to the principal  
causes of the malady. The allegory forming  
the Introduction to Part I. gives a brief his-  
tory of nervous exhaustion and the modes of  
treatment which have at various times been  
thought suitable to this most painful and try-  
ing disease.

By CYRIL BENNETT.  
12°, 184 pp., \$1.50.

## NOW READY. THE RADIOMETER.

By DANIEL S. TROY.  
This contains a discussion of the reasons  
for their action and of the phenomena pre-  
sented in Crookes' tubes.

Price, postpaid, 50 cents.

## Fact and Theory Papers

### I. THE SUPPRESSION OF CON- SUMPTION. By GODFREY W. HAMBLETON, M.D. 12°. 40c.

"The inestimable importance of the subject, the  
eminence of the author, and the novelty of his work,  
all combine to render the little treatise worthy of  
special consideration. . . . We heartily commend  
Dr. Hambleton's booklet, and wish there were more  
such works."—Editorial, *Boston Daily Advertiser*.

"The monograph is interesting in style, scholarly  
and well worthy of careful consideration. It is de-  
void of technical expressions, and can be easily read  
and digested."—*Pharmaceutical Era*.

### II. THE SOCIETY AND THE "FAD." By APPLETON MORGAN, Esq. 12°. 20 cents.

"Mr. Morgan founds a sensible and interesting  
address upon a text furnished by a sentence from  
a young ladies' magazine; namely, 'Browning and  
Isen are the only really dramatic authors of their  
century.'"—*New York Sun*.

### III. PROTOPLASM AND LIFE. By C. F. COX. 12°. 75 cents.

"To be commended to those who are not special-  
ists."—*Christian Union*.  
"Physicians will enjoy their reading, and find in  
them much food for thought."—*St. Louis Medical  
and Surgical Journal*.

"Mr. Cox reviews the history of his subject with  
knowledge and skill."—*Open Court*.

"It is of extreme interest."—*Medical Age*.  
"Worthy of a careful perusal."—*Indiana Medical  
Journal*.

"An interesting and popular account of the ten-  
dencies of modern biological thought."—*Popular  
Science News*.

"All interested in biological questions will find  
the book fascinating."—*Pharmaceutical Era*.

"The author displays a very comprehensive grasp  
of his subject."—*Public Opinion*.

"Deserves the attention of students of natural  
science."—*Critic*.

### IV. THE CHEROKEES IN PRE-CO- LUMBIA. By CYRUS THOMAS. 12°. \$1.

Dr. Thomas has already presented to the public  
some reasons for believing the Cherokees were  
mound-builders, but additional evidence bearing  
on the subject has been obtained. A more careful  
study of the Delaware tradition respecting the Tal-  
legvi satisfies him that we have in the Bark Record  
(Walam Olum) itself proof that they were Chero-  
kees. He thinks the mounds enable us to trace back  
their line of migration even beyond their residence  
in Ohio to the western bank of the Mississippi. The  
object is therefore threefold: 1. An illustration of  
the reverse method of dealing with prehistoric sub-  
jects; 2. Incidental proof that some of the Indians  
were mound-builders; 3. A study of a single tribe in  
the light of the mound testimony. This work will be  
an important contribution to the literature of the  
Columbian discovery which will doubtless appear  
during the coming two years.

"A valuable contribution to the question, 'Who  
were the mound-builders?'"—*New York Times*.

"Professor Cyrus Thomas undertakes to trace  
back the evidences of a single Indian tribe into the  
prehistoric or mound-building age."—*N. Y. Sun*.

"An interesting paper."—*Christian Union*.

### V. THE TORNADO. By H. A. HAZEN. 12°. \$1.

"The little book is extremely interesting."—*Bos-  
ton Transcript*.

"A book which will find many readers. The  
chapter on 'Tornado Insurance' is of interest to  
all property-holders in the tornado States."—*Boston  
Herald*.

"The Tornado is a popular treatise on an impor-  
tant province of meteorology, in which science, the  
author, Professor Hazen of the United States Signal  
Service, may be regarded as an expert."—*Philadel-  
phia Ledger*.

### VI. TIME-RELATIONS OF MENTAL PHENOMENA. By JOSEPH JASTROW. 12°. 50c.

"All students of psychology will find the book full  
of interesting facts. Professor Jastrow's good qual-  
ities as a thinker and as a writer are too well and  
too widely known to require comment."—*Public  
Opinion*.

"A useful work for psychologists—as well as the  
general reader—by setting forth in brief and easily  
intelligible form the present state of knowledge in  
regard to the time required for the performance of  
mental acts."—*The Critic*.

### VII. HOUSEHOLD HYGIENE. By MARY TAYLOR BISSELL. 12°. 75 cents.

"A sensible brochure."—*Brooklyn Eagle*.
